Marugame City Children Ordinance

You are our hopes and treasures for the future. Therefore, all the people in the town want you to grow up well while cherishing yourselves and the people around you.

Since we value "Children's Rights" in Marugame City, we made a city rule called "Marugame City Children's Ordinance" in March 2020 in order for adults to cooperate and support the growth of children.

What are "Children's Rights"?

"Children's rights" include what a child needs to grow up, such as being able to be raised by their parents with care, learn and play, receive medical treatments in case of illness or injury, be protected by adults from violence and discrimination, think freely and express their opinions, etc. These are set out in the "Convention on the Rights of the Child" signed by the countries of the world so that children around the world can live happily.

*This pamphlet breaks the contents of the Marugame City Children's Ordinance down for 4th to 6th graders to understand. You can see the original text of the ordinance on the Marugame City website (<https://www.city.marugame.lg.jp>).

Marugame, a town where children grow up well

We have created this aiming to put
what is best for children into practice.
Let's work together to make it
into a reality.

Children's Rights

A child has the right to be valued and to grow up well.

Every child has a right to be valued and seek for an environment in which he or she can grow up well. Any child will not be discriminated against for any reason, either relating to himself/herself or his/her family.

A child has the right to have their opinions respected and participate in various activities in the community and society.

Children are free to give opinions on things that are relevant to them. Also, children have a right to do various activities in the community and society.

Children also should value the people around them.

Just as children have the right to be valued, they also must value others.

● In this ordinance, "children" refers to people under the age of 18.

Are my rights not being protected?

You have many rights. No one should infringe on your rights.

If you feel that your rights are not being protected, you can consult or ask for help.

If you have any problems or worries, consult the people close to you, such as your family, teachers, school counsellors or friends.

There are many contact numbers that you can call when you have a problem. Please call the consultation desk if you feel that it is difficult to talk about your troubles or worries to your family, teachers, or friends.

Talk to the consultation desk on the back.
